

## SAYS HE'S NEVER SEEN ITS EQUAL

### Troubles of 6 Years' Stand- ing Disappear When He Takes Tanlac

"I shall never forget this trip to the states, because while here I've been induced to try Tanlac, the medicine that has restored me to health," declared Napoleon Therrien, well-known farmer of St. Leonard, Province of Quebec, Canada, while at Walsh and Cummings' drug store in Manchester, recently.

"For over six years I'd suffered with indigestion and stomach trouble. My food turned sour, and I used to bloat up so with gas that sometimes I thought it would kill me. It used to aggravate me to sit down before a real good dinner and be afraid to touch it, because I knew that if I did I should only suffer for it afterwards. Then my appetite failed me and I had no desire to eat at all. I got so that I couldn't sleep and would get up in the morning as tired as though I had been up all night. I became so weak at last that many a day I had to lay off from work and just let my farming go. Finally I decided to take a complete rest, and so came down here to Manchester to visit some friends.

"Naturally, I spoke to folks here about my condition, and it seemed that everybody I spoke to would say: 'Why not try Tanlac?' and so I called in and bought a bottle. Well, do you know, I hadn't taken half of it before I commenced to feel better. I seemed to be hungry all the time and thought I should eat my friends out of house and home. I can eat things now that I haven't dared to touch for years, and my food agrees with me perfectly. I never have any signs of gas on the stomach now, and I sleep sound the whole night through. I've gained ten pounds in weight and I'm going back to Canada feeling better than I have in years. In all my sixty years I've never come across a medicine equal to Tanlac, and I'm going to recommend it every chance I get."

Tanlac is sold in Brattleboro by the Brattleboro Drug Co., and in South Londonderry by Geo. G. Smith.—Adv.

## POWER CO. WILLING.

(Continued from Page 1.)

tained by them, or either of them, in consequence of the construction, operation and maintenance of your dam across the Connecticut river, between the towns of Vernon and Hinsdale, and WHEREAS, said towns are contemplating rebuilding said bridge, at your expense, and the construction of the contemplated bridge involves the question of the elevation of the new structure above the bridge seat of the old bridge, as a matter of possible protection from future damage, and

WHEREAS, a bridge constructed at a higher elevation than the old bridge may involve additional expense in the matter of construction, etc., and perhaps, land damages, by reason of the necessary grade for the approach at both the Eastern and Western ends of said bridge,

You are hereby invited and requested, to make such suggestions in regard to the elevation and construction of said bridge as you may deem advisable and proper, in the circumstances

Respectfully,  
S. A. RICHMOND  
A. D. WYATT  
W. E. STELLMAN

Selectmen of the town of Brattleboro.

Thursday, April 29, 1920.  
Messrs. S. A. Richmond, A. D. Wyatt, W. E. Stellman, Selectmen of the town of Brattleboro, Vermont.

Gentlemen:— We acknowledge on behalf of the Connecticut River Power Company of New Hampshire your letter of the 13th regarding the Brattleboro-Hinsdale bridge across the Connecticut River. There has also come to our attention an article regarding the conference of Saturday, the 10th, between yourselves and this firm on behalf of the Power Company, which appeared in the Brattleboro Reformer of April 12th, entitled "Power Officials Fail to Appear."

Some misapprehension seems to exist regarding the conference. It was arranged over the telephone between Mr. Wyatt and the writer and the date was fixed with reference especially to my being able to present and there was no suggestion that any of the Power Company's officials were to be there. Mr. Harriman informs me that he did not know that the Town had any expectation that he would be present. At the conference we stated that the Power Company's position was that while it denied any liability for the destruction of the bridge, yet it was entirely willing to bear some part of the loss and to take up with the town the question of what would be fair under all the circumstances. The conference ended with the suggestion that it would be renewed after the Town had given the matter further consideration.

Your letter of the 13th without advertising to the further conference which had been suggested, stands simply on the position that the Power Company is entirely liable for the destruction of the bridge.

The Power Company cannot acquiesce in the position taken in your letter of the 13th that you will rebuild the bridge at its expense nor can it accept any liability in connection herewith. About the time that the Power Company's dam was flooded in 1909 it raised the Little River bridge and road to point E30 at the request of the Selectmen of the Town of Brattleboro, but the Selectmen did not require it to raise the elevation of the bridge just destroyed, which was at point 234, and declined the offer of Mr. Clark C. Fitts made on behalf of the Power Company to raise it, as being unnecessary. Aside from other defenses, we feel that if the foresight of reasonable men did not at that time anticipate this loss the Power Company was not called upon to guard against it and is not liable for it.

Whatever the Power Company's legal defenses may be, however, Mr. Harriman expresses the Power Company's entire willingness to bear some part of the loss and that he and the engineers of the Company will always be glad to discuss the entire matter with the Town including the best and least expensive method of reconstructing the bridge. If the Town feels that an exchange of views between the parties with a view to seeing whether their views can be at all reconciled is desirable, the Power Company would be very glad to go into the matter with them and to meet them fairly in a sincere effort to reach an amicable and reasonable adjustment. If, however, the Town feels that the only basis on which the matter can be approached is that the Power Company is solely liable for the entire loss resulting from the destruction of the bridge, they have no basis for negotiations and it is useless to attempt them. Our position remains as it was left at the end of the last conference, that we are glad at any time to take the matter up further with you in an honest effort to adjust our differences fairly.

Yours very truly,

HARVEY, MAURICE, WHITNEY & FITTS,

By J. N. Harvey.

## SOLDIER RELIEF IS POSTPONED

Republicans and Democrats Agree to  
Let Legislation Rest Until After  
The Elections.

WASHINGTON, May 7.—After a series of informal conferences Democratic and Republican members of the house agreed yesterday there was no prospect of enactment of soldier relief legislation before the forthcoming recess for the political conventions. Representative Knutson of Minnesota, the Republican whip, said that many members felt that the whole question should go over until after the November election so as to avoid the possible injection of partisanship in its consideration.

Representative Garner of Texas, Democratic whip and member of the ways and means committee, which conducted extensive hearings on relief legislation, declared sentiment "was rapidly changing," and that a majority of the Democratic members of the committee "were willing to let the bill continue to sleep in committee."

Much of the change in sentiment, members said, was due to the large number of protests against increasing the tax burden, and its possible effect on the cost of living.

## HOOVER IS UNCHANGEABLE.

Will Not Mortgage His Soul to Secure  
Republican Nomination.

NEW YORK, May 7.—Herbert Hoover, candidate for the Republican presidential nomination, in a statement issued here last night, declared his attitude toward the nomination has not changed by the California primaries and that he will not organize a campaign, nor "have my supporters raise a great campaign fund and then mortgage my soul in advance in order to attain the election."

"I believe that the people have a right to elect their President without having someone put over on them," he said. "I have certain definite ideas regarding economic, social and international problems.

## LAWRENCE MILLS RUNNING AS USUAL

Places of Striking Engineers Are Filled—Agents Have Not Relplied to Union's Demands.

LAWRENCE, Mass., May 7.—All textile mills here were running as usual today with new men working in place of those engineers who struck yesterday for an increase in pay and shorter hours. The number of strikers was placed at 85 by union leaders. Mill managers said the strike had been without effect on operation of the plant.

The mill agents have as yet made no reply to the demands submitted by the Amalgamated workers last Wednesday for a 50 per cent wage increase, a 44-hour week and recognition of the unions.
